A question has arisen in the county as to wheher o most petitions were required under the Mann bill. The new law requires that the applicant obtain the consent of a majority of the registered voters in the district. It makes no specific mention of a petition, though this is the idea the public has gotten of it. The contention is now made that the law merely requires that the applicant show to the satisfaction of the court that he has the necessary consent and the license may be granted.

A petition will not be essential. Some of the court officers take this view of it and it is undersood that Judge Wickham expressed himself to that effect yesterday.

day.

Several of the saloonkeepers affected by the law are not, however waiting for the interpretation of this point. They have proceeded to draw up and circulate petitions and at least one of them has secured sufficient names. The list gotten up by this man would, it is said, make interesting reading if published.

At the courthouse yesterday a man said he had signed it, but had done so only because he saw upon it the names of two of the deacons of his church.

# Beware of our imitators!

We are the only distillers in this country selling direct to consumers. Like every success, we have imitators who "claim" to be distillers. They are not distillers and have no connection with a distillery. For proof, you need not take our word. Just see government reports. They are simply dealers, and can "doctor" their whiskey as much as they like and call it any age, for unfortunately the government does not control dealers as it does distillers. Now, these dealers are in business for profit, so when they offer eight to twelve-year-old whiskey for the same or less money than we, as distillers, can sell seven-year-old, the inference is plain. Their whiskey is not the ago they claim and is adulterated and watered. The cheaper they sell, the more water and adulteration you get. Beware of imitators. If you want honest whiskey, direct from our own distillery to you, with all its original strength, richness and flavor, carrying a UNITED STATES REGISTERED DISTILLER'S GUARANTEE of PURITY and AGE and saving the dealers' enormous profits, then accept our offer, which is backed by a company with a capital of \$500,000.00 paid in full, and the proud reputation of thirty-six years of continuous success. We have over a quarter of a million satisfied customers. Your money back if you're not satisfied.

Direct from our distillery to YCU Saves dealers' profits. Prevents adulteration.

Try it and if you don't find it all right and as good as you ever used or can buy from anybody else at any price, then send it back at our expense and your \$3.20 will be returned to you by next mail. How could an offer be fairer? We take all the risk and stand all the expense if you are not satisfied. Won't you let us send you a trial order? #### dition. AN INTERESTING COMPARISON.

ANINTERESTING COMPARISON.

It would naturally appear that owing to the price for which imported champagnes are sold, the combined revenue for the sale of all these wines would be in excess of the amount paid annually for any single brand of bottled beer.

But such is not the case, as the United States custom house statistics clearly and definitely prove.

Anheuser-Busch's Budweiser not only exceeds in sales all other bottled beers combined, but has proved itself the mightlest competitor of imported champagnes by exceeding their annual revenue more than three and one-half million dollars.

The sales of Budweiser during the year 1992 were 83,790,390 bottles, averaging 25 cents per bottle, amounting to

25 cents per hottle, amounting to \$29,047,575.

The United States custom house records prove the importation of all champagnes for the year of 1902 to be 300,768 cases. Figuring on a basis of 12 quart bottles per case—4,328,466 bottles, and if sold at the maximum, \$4.90 per hottle, to the consumers, amounted to \$17,813,501. From these figures it will be seen that Budweiser's lead was \$3,633,501.

It is a noteworthy fact that this pure and wholesome beverage is fast supplanting imported champagnes upon the banquet table, just as it is supplanting the decanter upon the sideboard in American homes.
